

WS10LX END-OF-SALE ANNOUNCEMENT

PRODUCT BULLETIN | Last Updated: June 27, 2019 | ID: PB2019-01

OVERVIEW

While Squirrel Systems makes every effort to minimize product changes that affect your operation, product refreshes are needed from time to time to keep the product current with new technology and features, and to address component obsolescence from our suppliers. With the recent introduction of a brand new line of terminals (WS140 and WS150 series) Squirrel Systems is announcing the official end-of sale date for the **WS10LX** Point-of-Sale terminals.

This notice contains all relevant milestones and dates for affected products.

PRODUCTION MILESTONES

Affected Models:	WS10LX
Last Time Buy:	July 30, 2019 The product can no longer be ordered from Squirrel Systems after this date.
Last Time Ship:	October 30, 2019 The product can no longer be shipped from Squirrel Systems after this date.

PRODUCT SUPPORT AND MAINTENANCE

Customers on hardware service contracts will continue to receive support.

Squirrel will be pleased to provide hardware service and support for WS10LX until **July 30, 2024** (minimum of 5 years from the last-time-buy date).

AFFECTED PART NUMBERS AND REPLACEMENT

Affected models and suggested replacement models are listed below. The new models provide benefits such as:

- Widescreen and standard screen format to blend into any hospitality environment
- Tablet style design that provides more screen real estate than 10" tablets
- Lower power consumption to lower operating costs
- Hundreds of new POS features to help staff work faster and spend more time with guests
