7 Essential Cloud POS Features

Feature Checklist	Why It Matters
Mobile Ordering & Tableside Service	Take orders from anywhere with handheld devices for faster, more accurate service.
Real-Time Reports & Analytics	Track sales, labor, and inventory across locations with real-time dashboards.
Table Management & Floor Plans	Visual floor plans and real-time table statuses help reduce wait times.
Loyalty Integration	Integrated loyalty tools drive repeat visits and personalized promotions.
Multi-Location Management	Control menus, pricing, and reporting from one central dashboard.
Offline Mode & Reliability	Continue operations without interruption during internet outages.
Seamless Integrations	Connect with online ordering, delivery, accounting, and CRM platforms.
